>Dear Chairman Isenberg:
>
>Since the central coast is the test case for the rest of California, it
>is important to give the plan the best chance of working. Since Package
>S builds its network on reserves near the minimum size acceptable to
>the Science Advisory Team, it risks the effectiveness of the network.
>
>Package 2 would be a better choice, unless the size of Package S
>reserves is increased.
>
>
>Sincerely,
